NOTICE

Pickens Academy has been inspected by an EPA-approved asbestos inspector and maintains a management plan file in the school office as required under the AHERA regulations.

Most of our suspect asbestos containing materials is in the form of floor tiles and carpet mastics. These materials are non-friable (not able to crumble with hand pressure) and well maintained. The law requires that we make this notice to all students, faculty and staff annually.

Pickens Academy is proud to provide a healthy atmosphere for the students, faculty and staff.

Pickens Academy Administration

Pickens Academy • 225 Ray Bass Road • Carrollton, AL 35447 • 205-367-8144 • www.pickensacademy.com

Our mission is to provide a quality education in a well-disciplined, Christian environment.
